Instruction/Notes:

A scratch sheet can be used for rough work; however, all the questions and steps are to be shown on the question paper. No extra/rough sheets should be submitted with question paper. You will not get any credit if you do not show proper working, reasoning, and steps as asked in the question statements.

Consider the following database for the next questions.

Exam:

Assume the referential integrity constraint on foreign keys APID, ATID, and AID of ArtPiecesDetail table are ON DELETE/UPDATE CASCADE.
